Imagine offering your guests a new mattress every morning.

In a sense you could if you had the HealthSmart™ Bed from Simmons. It features a unique removable top that traps fluids and particles. To clean, you simply unzip the top and wash in hot water, detergent and bleach, if you like, to help remove dirt, germs, bacteria, dust

mites, odors and perspiration just like when you clean sheets.* Instead of needing new bedding every few years because of soiled tops, you can just replace the tops.

There's more beneath the surface as well – a Beautyrest® mattress with Pocketed Coil® springs for unsurpassed comfort and motion dampening. For more fresh thinking on hotel bedding, contact your Simmons representative.
